

INSTALLATION OF THE ACCUVIEW PRINTER MODULE (AVPM)

The AVPM creates a voter verified paper audit trail which voters can view before their ballot is cast. It IS NOT a receipt for the voter. Voters do not receive a record or copy of their ballot choices to protect them from third parties who may wish to review the voter's receipt with the aim of punishing or rewarding them for voting in a specific way.

You will need all the parts shown to install the AccuView Printer Module (AVPM).

PLEASE NOTE: Incorrect installation will cause printer jams. If there is a problem with any of the following steps, carefully repeat the directions. If the problem persists, contact the Troubleshooter Hotline at 858-565-3360 and describe your problem.
