Dear Michael:

I have received your letter dated March 3, 2006, asking for information about the accessible voting devices that our State has acquired to comply with the Help America Vote Act (HAVA) mandate to permit the disabled to vote in private and without assistance for the first time in our Nation's history.

Specifically, you ask (1) what voting devices the state has acquired or plans to acquire to comply with HAVA, (2) the certification status for each device, and (3) what device and how many of the devices will be used in each of Arizona's counties for the 2006 primary and general elections.

I have attached a chart, which answers each of your questions by specifying the devices purchased, their certification status, and the approximate number acquired for each county. Please let me know if you need any other information. I can be reached at (602) 542-6167.

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph Kanefield", written over a large, loopy flourish.
